# Benefits of Radiant Heat

## Soothes Aches

**Therapeutic relief** – Our infrared heaters produce radiant heat waves like the sun - transferring warmth to the body, gently increasing circulation providing pain relief.

## Green Product

**No emissions** – Heating Green's infrared radiant heaters do not release any emissions, chemicals, or pollutants - meeting all UL safety standards.

## Silent Operation

**No distractions** – A pleasant ambiance day and night. An area with no interruptions to pull our attention away from priorities.

## Clean Heat

**Reduces dust** – Unlike forced air heating systems, our infrared radiant heating panels do not blow dust or allergens.

# Testimonials

## Proven - Professional - Passionate

"I had a great experience working with and ordering from Heating Green! The customer service was great, even when we had an issue with one of our panels and the panels heat my yoga studio perfectly! I would definitely work with them again!"

**Kat Just**

"We purchased Heating Green radiant panels for our home yoga studio, and are very happy with the product as well as the customer service!"

**Brian & Linda Shirley**

"We installed these heaters in our yoga studio a few months ago. They installed right into the existing drop ceiling. Installation was pretty easy and they work great! Well worth the investment."

**David Gray**

"The staff here are always willing to answer questions and help you pick the heaters that are right for you."

**Tyler Parbon**

"I have nothing but good to say about my experience with Heating Green. I have had many conversations and email exchanges with both sales & customer service as I worked to purchase, install, and set up the radiant heat panels in my hot yoga studio."

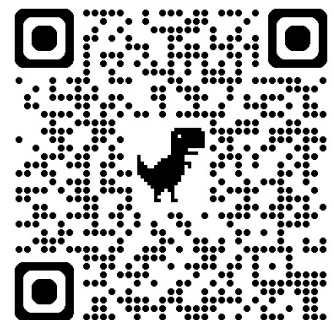

**Tracy Rhinehart**

"We purchased thermostats for our hot yoga rooms from Heating Green. We had an issue with one and they replaced it for free, no questions asked."

**Mike Von Ahnen**
