Infrared Heating System Guide

Sun-Like Warmth

Greater Comfort Using Less Energy

*Experience the Soothing Power
of infrared radiant heat*

Soothes Aches

Therapeutic relief – Our infrared heaters produce radiant heat waves like the sun - transferring warmth to the body, gently increasing circulation providing pain relief.

Green Product

No emissions – Heating Green's infrared radiant heaters do not release any emissions, chemicals, or pollutants - meeting all UL safety standards.

Silent Operation

No distractions – A pleasant ambiance day and night. An area with no interruptions to pull our attention away from priorities.

Clean Heat

Reduces dust – Unlike forced air heating systems, our infrared radiant heating panels do not blow dust or allergens.

Benefits of Radiant Heat

Testimonials

Proven – Professional – Passionate

"The addition of the Heating Green panels to our yoga studio is amazing. The heat they generate feels so great in the body. They warm the muscles and joints in a way that enhances the practice. Students love it!"

-Debi Grilo

Over the last 3 years I have used Heating Green for the design service and supply of yoga heating panels for yoga studio remodeling from Heating Green. What a pleasure to work with a team who are "on the ball" responsive.....

-Kevin Allen

"I love their heating panels!!! I have my own hot yoga studio and its a little bit of heaven. I researched panels and companies for a long time. Hands down they were the best."

-Lorie Atkins

"I have worked with Heating Green twice now for my studio and both experiences have been wonderful. They have been incredibly responsive, offer great open communication, friendly and professional."

-Liana Pierce

"These guys did a great job helping us select the right heaters for our yoga studio. The practice room heats up quickly and our instructors find them very easy to control. We couldn't be happier!"

-Allen Young

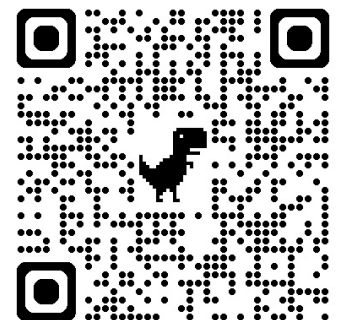

"I hope everyone looking to invest in electric heaters looks into Heating Green because they are the best company, hands down. Not only do we LOVE the heaters in our yoga studio, the customer service at Heating Green is top notch."

-Alyssa Scalora
